

Senthilkumar M

FrontEnd Developer

+91 8925393946 | senthilkumar393946@gmail.com | [Linkedin](#) | [GitHub](#) Madurai

Objective

Front-End Developer with strong expertise in **HTML5, CSS3, JavaScript (ES6+), and React.js**. Skilled in developing responsive, **user-friendly**, and **scalable web applications** with a focus on performance and modern UI design. Experienced in React ecosystem tools including **Redux** for state management and **Tailwind CSS** for efficient styling. **Strong understanding of UI/UX** principles, cross-browser compatibility, and debugging techniques. Passionate about building high-quality web interfaces and continuously improving skills in modern frontend development technologies. .

Technical Skills

- **Languages:** JavaScript, TypeScript,
- **Frontend:** React.js, Tailwind CSS, Redux, Framer Motion
- **UI/UX:** Responsive Design,
- **Tools:** Git, GitHub, Vercel

Experience

YaaRaa Technologies | July 2025 – Feb 2026

Developed responsive and interactive web pages using **HTML, CSS, and JavaScript** Built reusable UI components using **React.js** Collaborated with backend developers to integrate APIs and server-side logic **Debugged and resolved front-end issues** using browser developer tools Participated in code reviews to maintain coding standards and improve performance **Enhanced user experience by optimizing UI responsiveness and usability**

Roles

- **Frontend Developer (main role)**
- **React Developer**
- **UI Developer / UI Engineer**
- **Junior Frontend Engineer**
- **Web Application Developer**

Professional Projects

Bhummi

<https://agri-lyart-one.vercel.app/>

AI-based farming platform that helps farmers detect plant diseases, learn farming methods, check market prices, access government schemes, and sell products directly online. Built using MERN stack with secure user roles.

- Developed a **responsive and user-friendly interface** using React.js and Tailwind CSS.
- Built interactive features like **image upload, dashboards, and multilingual UI (Tamil, Hindi, English)**.
- Integrated APIs to display **live market prices, tutorials, and government scheme details**.
- Designed **role-based UI (Farmer, Buyer, Admin)** with secure authentication handling.
- Optimized UI for **performance, accessibility, and cross-device compatibility**.

Technologies Used: HTML5, CSS3, JavaScript (ES6+), React.js, Redux Tailwind CSS, Framer Motion.

QuickPark

<https://quick-park-sand.vercel.app/>

A web application for booking and managing parking slots online. Users can check real-time availability and reserve parking easily. Provides features like user registration, login, and booking management. Built with React.js, ensuring a responsive and user-friendly interface.

- Developed a **responsive front-end web application** for booking and managing parking slots online
- Built an interactive UI using **React.js and modern CSS** for seamless user experience
- Designed features for **real-time parking slot availability, selection, and booking interface**
- Created user-friendly pages for **registration, login, and booking management**
- Integrated frontend with APIs to fetch and display **dynamic parking and user data**
- Improved **UI/UX design** to ensure smooth navigation and intuitive user interaction

Technologies Used: HTML5, CSS3, JavaScript (ES6+), React.js, Redux, Tailwind CSS, Framer Motion.

Mini Projects

Medic care

A healthcare web application that enables users to manage patient details, book appointments, and access medical records. Provides secure features like registration, login, and profile management. Designed with a responsive and user-friendly interface for easy navigation. Built using React.js with API integration for real-time data handling

- Developed a **responsive healthcare web application** using **React.js / Next.js** with a focus on user-friendly interface design
- Built intuitive UI for **patient registration, login, and profile management**
- Designed interactive features for **appointment booking, doctor details, and medical records display**
- Integrated frontend with APIs to handle **real-time patient data and appointment updates**
- Improved **UI/UX experience** with smooth navigation and accessible design
- Implemented **modern UI animations** using Framer Motion for enhanced user interaction
- Ensured **cross-device compatibility**, performance optimization, and responsive layouts

Technologies Used: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Framer Motion.

SK Store

A web application for browsing, selecting, and purchasing products online. Provides features like product listing, search, filtering, cart, and checkout. Includes user authentication, order management, and secure payment integration. Built using React.js with a responsive and user-friendly interface.

- Developed a **full-featured e-commerce web application** for browsing, selecting, and purchasing products online
- Built a **responsive and user-friendly interface** using **React.js and Tailwind CSS**
- Implemented core functionalities including **product listing, search, filtering, cart, and checkout system**
- Designed intuitive UI for **user authentication, product details, and order management**
- Ensured **cross-device compatibility**, optimized performance, and smooth navigation experience
- Applied **UI/UX principles** to enhance usability and customer engagement .

Technologies Used: HTML5, CSS3 React.js, JavaScript, Tailwind CSS

Education

- **B.Tech - Information Technology** -(2022-2025)

Sethu Institute of Technology - Virudhunagar
